FOR IMMEDIATE RELEASE

InMotion Global TMS® Makes *Food Logistics* 2012 FL100 List

***Food Logistics'* Annual Listing Includes the Top 100 Software and Technology Providers**

Saint Petersburg, FL – December 17, 2012

InMotion Global TMS® has been honored again by *Food Logistics* Magazine. The magazine included InMotion Global on its annual FL100 List, which includes the country's leaders in the Logistics Technology market.

In the magazine's December issue each year, editors at *Food Logistics* recognize 100 software and technology providers that focus on products for grocery and foodservice distributors and manufacturers.

InMotion Global's innovative suite of software solutions enables customers to control their entire operation with comprehensive but easy-to-use products. The company's patented Transportation Management System has won numerous awards over the years, including *Inbound Logistics* Magazine's Top 100 Logistics IT Providers award.

"With the evolution of the food supply chain, software and technology providers are playing a more critical role in addressing needs such as end-to-end visibility and collaboration, traceability, regulatory compliance, risk management, sustainability, and cost containment," notes Lara L. Sowinski, editor-in-chief of *Food Logistics*. "Technology is the competitive differentiator for companies in our industry who need to stay ahead of dynamic changes in the marketplace."

Tim Higham, President and CEO of InMotion Global, said, "I'm so proud of our team here at InMotion Global. Year after year, they push the technology further than we thought possible and, in the end, our customers benefit from our team's innovation. We're really honored to receive the *Food Logistics* FL100 again this year and we're excited about the plans we have for 2013."

About InMotion Global, Inc.

InMotion Global, Inc. provides the industry-leading and patent-pending Transportation Management System, Ascend TMS™ with its companion web-based load tracking portal LoadLink™ to thousands of shippers, 3PL's and asset carriers in 19 different countries across the United States.
