## **Transportation Training Group Partners With AscendTMS™ And Offers Free Transportation Management Software To Students And Graduates**

### ***National Freight School Gives Away AscendTMS™ Software To All Students***

Brandon, FL – March 2, 2016

InMotion Global, Inc. today announced that it has partnered with Transportation Training Group, Inc. of Illinois to provide AscendTMS™, at no cost, to all new and graduating students. Transportation Training Group (TTG) is a national freight brokerage training school offering multiple freight related courses. TTG students will use AscendTMS™ to learn transportation management software (TMS) skills and concepts during their courses, and will be given the system, for free, upon graduation.

Tim Higham, president and CEO of InMotion Global, Inc., said, “AscendTMS™ is the preferred TMS software for freight schools, and is used in more freight training programs than any other logistics software. Transportation Training Group is yet another national top-tier freight training program using AscendTMS™, which is acknowledged as the best TMS software in the industry. Transportation Training Group can now provide state-of-the-art TMS software training to their students, and free TMS software to their graduates.”

Scott Woods, founder and CEO of TTG said; “We have successfully taught premium freight brokerage programs for many years, and AscendTMS™ is the best overall TMS software I have ever seen. Our students want access to the latest TMS technology within our programs, and we always deliver what our students want. AscendTMS™ lets our students practice the concepts they learn with us, and now they can take a first class TMS system with them when they graduate. This is important if they intend to set up their own freight brokerage business upon graduation and want to start making money right away.”

AscendTMS™ continues to be the only transportation management system (TMS) offered at no cost for the base system and is the only TMS that can be launched immediately from a website by new users with no contract, no upfront fees, and no long-term license agreement. AscendTMS™ continues to be the world’s leading cloud based freight brokerage software, trucking software, and shipping software, and has won every major industry award over the last 14 years.

**About InMotion Global:** InMotion Global, Inc. provides the free, award-winning, patent-pending Transportation Management System, AscendTMS®, to freight shippers, freight brokers, and trucking companies. AscendTMS® is used by thousands of companies in 19 countries, from small single-person logistics operations to multi-billion dollar international corporations, to manage any logistics operation. AscendTMS® is 100% free to use, requires no upfront fees, no annual license cost, requires no downloads or installations, is mobile certified, and provides enterprise level TMS features to manage and operate any logistics operation. AscendTMS® is the world's leading cloud based freight brokerage software, trucking software, and shipping software, and is currently the world's fastest growing and most widely used TMS solution, adding over 20 new corporate customers per day. InMotion Global, Inc. is headquartered in Brandon, Florida. Learn more at [www.TheFreeTMS.com](http://www.TheFreeTMS.com) or at [www.InMotionGlobal.com](http://www.InMotionGlobal.com).
